Modular Workstations

Workstations That Work As Hard As You Do.

In today's age of rapidly transforming businesses, workspaces are becoming increasingly dynamic.

A workspace is no longer just a place where people sit and work. It's an extension of our ideas, our personality, and the way we get our work done.

Godrej Interio's Modular Workstations are designed keeping in mind the needs of new-age workspaces, and provide next-gen furniture solutions that inspire optimum performance.

Let's get working!

Configuring Workstations

Desk-based Systems

Desk-based Systems are designed for flexible, adaptable and collaborative workspaces. The modules not only add aesthetic appeal to the workspace, but also provide the ergonomic, sustainable and space optimisation features needed by organisations.

- Upbeat
- Move Up

Desk-based Systems: Move Up

Desk-based Systems: Upbeat

Panel-based Systems

Panel-based Systems add depth to your office space. Their contemporary designs are not only pleasing to the eye, but also highly flexible in nature. These allow for office layouts to be planned around existing oddities within the workspace.

Mobile Systems

Mobile Systems are workstations whose layouts are not set in stone. They are designed for workspaces that prefer immediate flexibility and reconfigurability of their layouts, which can be done by the user as per their space utility requirements.

- Habitat

Mobile Systems: Habitat

Desk-based Systems:
Move Up

Features

- Move Up is created using the most inclusive design strategy for adjustability.
- It recognizes the uniqueness of each person and facilitates fluid transitions between working positions.
- The simple Move Up controller adjusts the height of the work desk (69cm to 114cm) and puts the user in command of their comfort and well-being.
- Also comes with an optional smart app that connects with the table, saves individual preferences, provides a touchless operation, and enhances the overall work experience.
- Has an in-built safety mechanism that makes it safe to operate without colliding or crashing into any obstruction or object.
- Move Up's versatile design language allows it to coexist with other interior elements, to create various working ecosystems that meet the cognitive work requirements of the users.
- Choose from a wide range of screen design and finishes, from transparent glass to opaque fabric, from static screens to screens that move along the height adjustable desk, to make your work space truly yours.

Table leg types

Mobile Systems:
Habitat

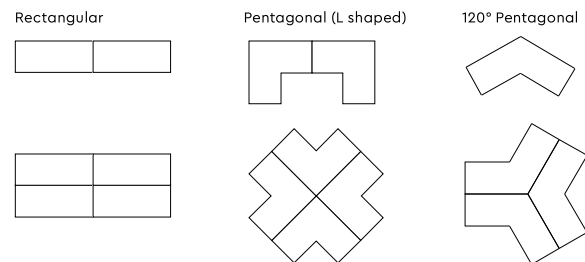

Features

- Habitat is an all-in-one workspace solution for corporations that place an equal emphasis on aesthetics, functionality, and sustainability.
- It's designed for workspaces that prefer immediate flexibility and reconfigurability of their layouts, which can be done by the user as per their space utility requirements.
- The panels are designed to fit together seamlessly, and feature extensive wire management with easy access and maintenance.
- Comes with glass screen panels above worktop level for an open and transparent look.
- You can also opt for different types of glass finishes, like clear glass, frosted glass, laminated coloured glass, ceramic printed glass etc.
- The tables can be reconfigured, folded, and stacked horizontally as per your utility.
- Accessories like portable power posts, mobile marker-board screen, name plate, single and double sided shelf, as well as the magnetic rail on the glass screen are provided to accentuate the aesthetics and functionality of the workstation.
- Clear up floor space by attaching the optional CPU-holder accessory to the panel.
- The panel tiles come in a wide range of colours as well as finishes such as fabric, laminate, magnetic with fabric and white board.

Panel-Based Systems:

Wish

Features

- A workstation with numerous configuration possibilities.
- This contemporary concept is not only pleasing to the eye, but also highly flexible in nature, allowing office layouts to be planned around existing oddities within the workspace.
- It's designed to be able to fit into any office layout, by creatively utilising even ungainly outcrops such as pesky columns into the design of the workspace layout.
- This capability of being highly accommodative is possible because of the ingeniously-crafted horizontal panels that comprise its structure.
- The sleek gapless panels with their proportional visual lines provide the workstations with a modern look and feel.
- Creative layout plans can result in a variety of looks for offices, such as a single colour monolithic look, a classic wooden look, a multi-coloured tiered look, an artistic acrylic finish, or even a post-modern transparent or translucent glassy look. Colours can be chosen from the Spectrum range to suit different needs.
- The panels are available in thicknesses of 23mm and 52mm with wire management features in the 52mm panels.
- The top band of the panels come in a versatile range of options, such as clear glass, frosted glass, laminate, white board, fabric and magnetic board with fabric.
